Good Hunting Reported By Local Sportsmen

Reports coming in from local hunters indicated that shooting in the Wainwright district was good with ducks being more numerous this season than they have been since the fall of 1942. With daylight as early as 5 a.m. on the opening day, hunters found it difficult to avoid being seen. The birds are in fairly large flocks and as there are numerous sloughs in the stubble fields, they are scattered more evenly over the district than in previous years.

Most of the boys who have gone hunting secured a good bag of game, reporting plenty of ducks and that there should be good shooting from now until the close of the season.

The bag limit on ducks is 15 per day, of which 7 must be mallards, with a bag limit of 150 for the season. The limit for geese is 15 per day, with a total of 25 for the season.

IN MEMORIAM

In loving memory of our dear daughter and sister, Rita Symes, who passed away September 25, 1935.

This is a day of sad remembrance and a bitter 7 must be made to avoid being seen. The birds are in fairly large flocks and as there are numerous sloughs in the stubble fields, they are scattered more evenly over the district than in previous years.

A very interesting meeting of the publishers of Northern Alberta weekly newspapers was held in Edmonton earlier this summer. The session was a lively one-day affair organized by L. D'Albertainson of the Chauvin Chronicle and chaired by Wm. Drayner, of the Wainwright Times. Discussions were led and addresses given by A. Shitka, King's Printer, R. A. Godson and Harry Reed, of the Metropolitan Printing Co., Wm. Drayner of the Wainwright Times and G. S. Holmes of the Provost News.

The luncheon was provided by the Edmonton paper wholesalers, with H. Mills, of Mid-West Paper Sales as chairman and J. Taylor of Clark Bros. as speaker. In the evening the party was the guests of radio station CICA, with Tom Shandro as host. In the above photo are shown: (back row) Cal Henry, Camrose Canadian; G. S. Holmes, Provost News; Wm. Mrs. J. Sutherland Honored At Party

Mrs. Sutherland was pleasantly surprised on Friday evening, Sept. 13th, when a number of friends called on her for a surprise farewell party.

The evening was spent talking over old times and community singing was also enjoyed after which Mrs. F. Dixon presented the guest of honor with a Froese Cooker on behalf of the gathering, expressing their regret at losing her but extending wishes for many years of happiness in their new home.

A dainty lunch was served by the ladies before the party dispersed.

Mrs. and Mrs. Sutherland who have lived in Wainwright for the past thirty-eight years are leaving shortly to make their home in Edmonton.

For Ration Book Latecomers Only

For the information of those who neglected to pick up their new Ration Book No. 6 during distribution week, the Ration Administration of the Wartime Prices and Trade Board at Edmonton issued instructions for latecomer applicants.

The green application card at the back of the old ration book marked B1 (91) should first be filled out in pen and ink and signed by the holder. Then this card should be torn from the old book, placed in an envelope, and mailed to the nearest local ration board or to any branch of the Ration Administration. The new ration book will then be mailed to the applicant as soon as possible.

Ration officials pointed out that application should not be made in person as Local Ration Boards are not authorized to issue new books to latecomers. Application cards should be mailed only.

Town Council Send Wire To Ottawa

In view of the fact that the town is suffering a slight shortage of farm produce the Mayor and Council of the town this week sent a telegram to the Hon. Prime Minister King and to Hon. J. G. Gardiner, Minister of Agriculture requesting that they set up the parity price board that the A.F.U. are now demanding.

There has been very little activity in the way of strike violence during the past week with nothing being reported.

There has been a small amount of grain trucked in to the town elevators by non-resident truckers mostly doing the trucking. On Monday of this week we noticed two truck loads of wheat driving down the street going to the elevator.

The wire that the town council sent to the authorities reads in full as outlined below. (A telegram to each member.)

Beat This One

Truth reads stranger than fiction but it isn't only the editor of a scandal rag that gets taken for a ride.

The whole truth and nothing but the truth is that a potential financial prospect walked into the office of an enterprising local dentist this week and requested the removal of an aching tooth. The patient was professionally received and for reasons best known to the dental profession was administered with the necessary dose of freezing fluid prior to the extraction.

Leaving the patient to calm himself the dentist walked off and left him in the chair for a few minutes in the customary fashion, and returned only to find the patient triumphantly holding the forceps with the tooth between them. Said he—"I guess I won't have to pay the dollar for this one!"

It's just because of people like this that dentists and editors start on their second mission.

Letter From Vienna Describes Food Cond.

"I visited grocery, vegetable, meat and milk products stores. The shelves of the stores are lined with cartons and bottles—all empty. The stocks are incredibly meagre. All the butcher shop had to offer the normal consumer was a small quantity of fat. The vegetable store had some green peppers—a rarity. There were enough for only 299 of its 1000 customers. Ration coupons were taken for these, of course. The only products the grocer had were bread, soup powder, coffee made from beans, 'tea' made from cabbage and herbs, some baking soda and mineral water. Only the mineral water, cabbage tea and baking soda were rationed."

This is a quotation from a letter written by a member of Canada's Food Information Committee, dated Vienna, August 15th. Details of the food rations available there during the week of August 12th to 18th reveal how pitiful is the market basket of an Austrian housewife contrasted with the well-stocked baskets of Canadian shoppers, how grim is their struggle to exist.

For a normal adult consumer, the total rationed foods provided about 1200 calories per day—less than half the number enjoyed by Canadians. And in Vienna no other food is obtainable. The amount of food procurable from Black Market sources is negligible, and the prices prohibitive.

The foods which went to make up the 1200 calories for this August week were dried soup powder, enough to provide one large bowl of soup each day with perhaps an extra serving on Sunday; 1 oz. canned meat, 2 small potatoes, 7 slices of bread and a scant tablespoon of lard, salt and some ersatz coffee which would have to be milkless and sugarless unless inroads were made into the meagre rations of the children. Available in the course of the week were baked goods, equivalent to about three of our average sized rolls, and one and a half cups of flour, the use of which must have tested the ingenuity of the housewife as other ingredients for baking were lacking.

Young children fared a little better than other members of the family. Those under six received enough fresh, skimmed and powdered milk to provide about one glass a day. There was no milk at all for anyone over twelve except expectant mothers who received a small ration of skimmed milk. Children under three were not eligible for the meat or potato ration, nor did those under six receive the dried soup powder. They did, however, get a dried egg ration, equivalent to about one egg a day. A small ration of butter was allotted the children in place of the lard, and they also received 2 oz. of the week. Small additions were made to the rations of expectant mothers and certain categories of workers.

Haddin & Miles Receive Appointment As Engineers Water and Sewer Project

This is the official record of the proceedings of Council of the Town of Wainwright at its regular meeting in the council-chamber, at 8 p.m., on Tuesday the 17th day of September, 1946.

The members of Council present at this meeting were Mayor Middlemass and Councillors Robinson, Tork, Cook, Coleman and Leggett. The recorded proceedings of Council at their regular meeting held on September 3rd were read and on motion of Councillor Tork were confirmed as written.

Delegations were in attendance, comprising Mitchell, West Side Community Club, Mrs. Harley relative to sidewalk to hospital and Mrs. Nordstrom in connection with cars parking on sidewalk. These matters were given consideration by Council and the Secretary instructed to ascertain the position of the Town in regard to Block 19, proposed as a community park by the first named delegate.

On motion of Councillor Tork, that the Secretary be instructed to write Mrs. Rosalee Taylor, Secretary of Wainwright Public School Board, to inform her that arrangements have been made to have 9th Avenue properly graded, but owing to shortage of cement, construction of sidewalks cannot be undertaken this year.

On motion of Councillor Coleman that permission be granted Mr. J. A. Morgan to erect a canopy on front of his new business premises now under construction on Lots 9 and 10 in Block 7, providing plans and specifications of same are considered satisfactory by the building inspector.

Retiring Railway Man Honored

Mr. and Mrs. Jack Sutherland, long time residents of Wainwright were honored by a number of fellow employees and their wives last Wednesday evening when they met at the home of Mr. and Mrs. W. T. Clark.

The first part of the evening was spent in community singing, contests and games. Later a number of scotch songs were given by Mrs. A. T. Gray accompanied by Mrs. W. S. Clark.

A delicious lunch was served by the hostess who was assisted by Mrs. D. Dundas and Mrs. K. Fenby. A presentation was made by locomotive foreman, A. T. Gray, on behalf of the station and shop staffs. Speeches were given by Mr. J. B. McMillan, superintendent of the Edmonton district, and W. T. Lane, agent, to which Mr. Sutherland ably replied.

Mr. Sutherland, retiring car foreman, has been with the Canadian National Railway for the past thirty-eight years of which 35 years has been spent in Wainwright. Mr. and Mrs. Sutherland will make their home in Edmonton.

EXPLORERS NOTES

The explorers held their meeting Friday, September 20th, in the basement of St. Andrews Presbyterian church. A very enjoyable evening was spent by all as it was the first meeting for a number of weeks.

We hope to see all the explorers out on the 27th in St. Andrews Presbyterian church at 7 o'clock. A party will be planned, and the election of officers will take place.

Notice To Farmers

Due to receiving the favorable co-operation of the merchants, mayor and council of the Town of Wainwright in writing the authorities at Ottawa, it is now advisable to commence supplying the stores in the said town with all farm produce so far as you may be able.

Signed: Strike Committee
Wainwright Local A.F.U.

On motion of Councillor Cook, that letter received from Mr. John Haddin, Consulting Engineer, dated September 8th, advising Council of his proposed visit to Wainwright at an early date, be filed.

On motion of Councillor Coleman that Tax Sale of the Town of Wainwright be held on Friday, the 29th day of November, 1946, at the office of the Secretary-Treasurer, at the hour of 2 p.m. and that the price on all properties be set at 100% of valuations established at the last revised assessment.

On motion of Councillor Robinson, that an extension of 30 days be allowed for payment of current taxes with an allowance of full discount and that the Secretary be instructed to accept payment on this basis, until the 1st day of November.

On motion of Councillor Coleman that the communication received from Dr. H. C. Wallace, concerning building permits for proposed erection of a "Clinic Building" in Block 22, corner of Main and 4th Avenue East, be discussed under the heading of "New Business."

On motion of Councillor Leggett, that Mrs. Avis McKenzie, be appointed Enumerators of the Town of Wainwright for the year 1946, at a remuneration of 10c per name and that a By-Law be prepared authorizing this appointment.

On motion of Councillor Coleman that assent be given to the introduction of a By-Law concerning the appointment of an Enumerator of the Town of Wainwright for the year 1946.

By-Law Number 528 then received its three readings in regular form.

NOTICE OF MOTION—Given by Councillor Coleman concerning elimination of Lots 1 to 6, Block 22, from Fire Limits.

I give notice that it is my intention to submit to Council at its next regular meeting, a resolution authorizing the passing of a By-Law to amend the Building By-Law Number 172 of the Town of Wainwright, deleting therefrom Lines Eleven (11) and Twelve (12) of Clause Forty Six (46), where they appear therein.

On motion of Councillor Coleman that this regular meeting of Council stand adjourned until the hour of 8 p.m., on Thursday, the 19th day of September, for the purpose of giving an audience to Mr. John Haddin of Haddin & Miles Ltd. Consulting Engineers.

Adjourned meeting reconvened at 8 p.m. on Thursday, September 19. On motion of Councillor Cook, that Messrs Haddin & Miles receive the appointment as Engineers to conduct all necessary work in the preparation of plans, specifications and supervision of all construction in connection with the installation of Water and Sewerage Project for the Town of Wainwright and further that commission for this work shall not exceed seven per cent on actual cost of material and construction and that a By-Law be prepared authorizing Council to proceed with the signing of a Contract to this effect.

On motion Council was regularly adjourned.

Mrs. Albert Wilson returned from Vancouver where she has been paying an extended visit to her son, Rev. V. Cole and Mrs. Cole were visiting at her parents' home.

Mrs. Dud Sawyer paid a business visit to the city by bus.

A meeting of cream shippers was called for Tuesday, September 17 in the Memorial Hall. The object of the meeting was to find out by ballot whether it was the wish of the Farm Strikers to ship cream to be churned into butter and held in storage or whether the Creamery should take no cream in. Mr. T. Bates was elected chairman of the meeting. He outlined the position of the Creamery and also that of the cream producers in a very fair way. The result of the vote was 34 in favor of the closing the creamery and 29 in favor of cream being taken. The vote taken was very small considering there are around 700 cream shippers who use this Creamery.

Miss Horn, teacher of grades 5 and 6, has been quite sick and her room has been closed. She was taken to the hospital Friday.

Mr. and Mrs. P. S. Pawsey, Mrs. F. F. Mitchell, Mrs. R. Kingston and Jean were all visitors to the city.

Mr. and Mrs. Geo. D. Miles of Edmonton are visiting at the N. Miles home. Harvest Thanksgiving service will be held at St. Mary's church next Sunday, Sept. 29 at 7:30 p.m. This will be the Rev. Brooks last service here before returning to Winnipeg for the winter. He hopes to return in the Spring with his family. Other arrangements for services will be made for the winter.

HEATH

A number from the district attended a meeting on Tuesday evening at Edgerton called by the N.A.D.P. to discuss the closing of the creamery at that point. A vote of the cream shippers decreed that it should be closed during the strike.

PELICAN

The non-delivery strike is in full swing. All members of the local A.F.U. are taking their turns at picketing. Most of the cream producers turned out to the meeting called by the Northern Alberta Dairy Pool in Edgerton last Tuesday, at which it was voted to close down the local creamery. Evidently the same decision was reached at most of the other N.A.D.P. plants.

The equinox was ushered in with a snowstorm again. We do hope for an Indian summer of several weeks of fine weather.

Lorraine Bell spent a few days at Grandma Leskov's last week. National Film Board picture shows will be resumed at Pelican, the first showing to be given on Tuesday, October 8th.

Mr. and Mrs. H. Bell are returning to Edmonton this week after a very busy month spent helping the family with harvesting, building, etc.

Mr. and Mrs. G. D. Miles are visiting in Edgerton and at the farm, prior to going to Victoria for the winter.

SHEPSKIN FLATS

(last week) We see Miss Fern Gardiner is now clerking in Armstrongs store. Mr. Reed of Almont, Ont., is a guest at the home of Mr. and Mrs. Mac Templeton.

Miss Jean Hasnussen is home for a few weeks to help her mother during the harvest.

Mr. and Mrs. R. J. A. Roberts and son John visited on Sunday with their daughter Mrs. Earl Plaxton.

Mr. Louie Egrie started threshing over the week-end with a full crew aboard.

(this week) The Womens Welfare Club held their monthly meeting at the home of Mrs. Marvin Plaxton.

Little Denise Tondy had the misfortune to drink some horse medicine, making herself quite sick. She is well again now.

We are glad to hear that Mr. Cecil Hicox, who for the past two weeks has been ill in the local hospital, is well on the road to recovery.

Mr. and Mrs. Bartlett, Sr., motored to Artland, Sask., on Tuesday with Mr. Davis of Wainwright to attend the funeral of Mrs. Thomas Scott.

Harvest service at the Anglican church was postponed because of the stormy weather and will be held on Sept. 29th at 3:00 p.m.

Mrs. Mockford entertained her neighbors at tea on Monday afternoon on the occasion of her birthday.

Mrs. Mabel Chynoweth underwent an operation at the Misericordia hospital in Edmonton and is making favorable progress. Mrs. Stanley Chynoweth has been there with her.

Miss Keuffer is staying with Mr. and Mrs. Harley at Heath.

Grain that has been threshed is turning out somewhat better than expected. Unfortunately the weather has forced a discontinuance of harvesting.

This may be the darkest hour of history. Have you any light for it?

WHITE CLOUD

Mrs. J. H. Myer returned to her home at Ponoka on Tuesday after spending several months in the district.

The snow storm stopped a number of threshing machines from finishing the seasons work.

Mr. Keith Babb has been home several weeks and is a civilian now. Audrey and Betty Babb got home Friday evening but thought they might have to ski back to the dormitory.

Elmo Myer has been helping with the chores at the H. Teeter farm.

THE GAS RATES

From time to time as one sits down to wondering we have often pondered the question, why there has not been a major reduction in the price of natural gas as supplied to the consumers in the Town of Wainwright?

Wainwright has enjoyed this service of natural gas ever since the first contract was entered into between the town council of the day and Mr. Claude De Vall in 1925. Since that time much water has flowed under the proverbial bridge, and today the Wainwright Gas Company with Mr. Campbell as president, is to be commended on the fine service that the residents of this community have received.

To get back to the first paragraph though, would it not be possible to see a decrease in the rates of the commodity offered?

In the town of Vegreville, as noticed in the "Observer" we see a story covering the fact that they were to enjoy a reduction in the price of their gas. The story did not say just what the rate was now or the proposed new rate, but it quite probably is higher than we pay here for the same service. It must be remembered that our sister town has not enjoyed the comforts of gas heating and cooking for the same length of time that we have. Therefore we suspect that they are paying more for gas than we do. For our own case we do not recall a reduction in rates for some time past, and if they are at all possible, should we not receive the benefit?

We do not mean to imply that the Wainwright Gas Company is making money hand over fist, for we know different. There is a great expenditure of money to set up the installation of a gas distributing works which can only be recovered by a long term investment. To recover the initial cost of such an undertaking there has to be a profit shown for a good many years in order that the required goal might be reached.

With the exception of sinking a new gas well and other minor expenses, the gas company has not made any huge disbursements since its taking over the property. Another point that might be brought to mind at this time is the additional growth that Wainwright has experienced during the last six years. This is important, because the costs per installation go down and the consumption goes up. Therefore if it cost 27 1/2 cents per thousand cubic feet of gas in 1929 to supply the residents and consumer, we are of the opinion that the cost per consumer today would be greatly reduced.

It is not the gas company or the Town that sets the rates, but the Board of Public Utilities of the Provincial Government that have the final say in such matters. Either the Gas Company or the Town could make application to have the matter looked into and the Utilities Board will do what it thinks best.

We have never had cause to complain in Wainwright for the service rendered has been the highest. If a reduction in the rates will mean a curtailment of the services rendered we are not for it, but if the reduction in the rates would mean cheaper heating and cooking by all means this is what is needed.

To compare the light utility to the gas utility would be foolhardy as one is a big concern with head offices in Montreal and the other a much smaller one with the head office in Edmonton. The Calgary Power Company serves many centres other than this town, therefore, excepting the cost of the transmission lines their expenses are not too greatly increased and a lower rate for power has been brought about. The one admirable fact about the power company is, they have never been asked by the town to offer a lower rate for their product. They have voluntarily brought this about by themselves in each case that the rate has been reduced.

The foregoing is not in any way intended to ridicule the gas company, but it is intended to draw to somebody's attention the fact that a rate reduction is long overdue.

If we have erred in these statements or misrepresented the facts we stand to be corrected. If not, and it is possible to bring about the desired reduction, we'll hope that action takes place which will bring the desired into being.

FARMING NOTES

By Prov. Dept. of Agriculture

FALL TILLAGE OF STUBBLE LAND

Fall tillage is a practice that merits wider practices throughout Western Canada. On the black and grey wooded soil zones, fall tillage is done for the control of annual, biennial and winter annual weeds; and, in most seasons it helps the farmer in getting on the land earlier in the spring, says H. W. Leggett, Dominion Experimental Station, Lacombe, Alta.

On the open prairie, fall cultivation has not been a common practice because it does render the soil more susceptible to soil erosion; and, by breaking down the stubble, losses occur in the amount of snow the stubble will hold. Of late years, it has been found that fall cultivation with the different types of blade weeder may be practiced to advantage on the open prairie to control weeds and insects. At Nanton, Alberta, fall tillage with a blade weeder to control the wheat stem sawfly has been followed for several years. Immediately following harvest the land is gone over with a blade weeder and although the wheat stem sawfly is present in that area the farm referred to is practically free from them.

Fall cultivation is one method that is valuable in controlling weeds and some insect pests. When harvesting crops all the weeds are ripe and the binder and the combine scatter these weeds over the land. By going over the land with the proper implements directly after harvesting it is possible to germinate these weed seeds and then destroy them. Those that live through the winter will be in a weakened state so that they will be killed by cultivation in the spring.

The important points to remember are that the different soil zones must be handled with the proper implements. Where soil drifting and water conservation is important an implement that will leave the land in a state where it will not drift readily and leave the stubble so that it will hold as much snow

as possible should be used. On the black and grey-wooded soils in Western Canada, where soil drifting and water conservation are not as much of a problem, a double disc or a one-way disc, operated as shallow as is practical, will do an excellent job of germinating and killing the weeds.

Early fall cultivation is important and will pay dividends in the form of greater crop returns by helping to control the weed problem and has added advantage of helping to control some of the insect pests which destroy crops.

World Of Wheat

A NEW WHEAT NEEDED

I have just returned from a trip throughout the West, and from what I saw and heard there were many fields of Garnet in Northern Alberta which were successfully harvested quite early, escaped the frost and so gave a clear bright kernel and a high yield, whereas other varieties, which were all later in maturing, were caught by the frost of July 24th and so lost grade and yield.

Garnet, however, has not as high all-round milling and baking qualities as has Marquis. The standard of quality, so it cannot be placed in the top Northern grades. It is obvious, therefore, that thousands of farmers would be benefited if our plant breeders could produce a new variety which would be as early maturing as Garnet and with as high milling and baking qualities as Marquis.

Dr. L. H. Newman, the Dominion Cerealist, with his associate Plant Breeders and Plant Pathologists, have for long been working to produce just such a valuable early variety, together with new and improved strains of oats, barley and flax. Let us hope that success will soon crown their worthy efforts.

What a great debt I thought to myself, our farmers and all of us owe these quiet, patient and highly talented plant breeders, plant pathologists and other scientific agriculturists!

Turkey has concluded contracts for the export of 150,000 tons of wheat—The U.S. will rush 224,000 bushels of food grains to India this month to avert a threat of famine—Iraq has obtained a good barley crop and the British Ministry is negotiating for the surplus of 200,000 tons.

The U.S. export goal has been increased from 250 million bushels of wheat and flour to a probable 400 million bushels of all grains and grain products—Argentina and Ecuador have signed an agreement by which Argentina will furnish 10,000 tons of wheat and quantities of livestock at fixed prices.

DUNLOP Faces A GREAT RESPONSIBILITY

With other tire plants closed down for the past two months, Dunlop is faced with the great responsibility of endeavouring to satisfy the tremendous demand for tires due to the non-production of other tire companies.

Dunlop accepts this responsibility. Confident in the consistent loyalty and productive skill of its employees with whom the friendliest relations have always existed... possessed of the understanding and co-operation of Dunlop Dealers everywhere... Dunlop is bending every effort... concentrating every resource... on the production of Dunlop Tires to meet the needs of essential transportation, regular Dunlop customers and all others whom it is possible to serve through its established dealers.

TIRE SITUATION CRITICAL

No one can over-emphasize the critical shortage of tires today. And there are few signs of improvement. Even the manufacturers of new cars and trucks are obliged to ship cars and trucks without tires. It is utterly impossible for one tire plant to attempt to reasonably serve essential transportation, equip these new vehicles and to take care of consumer sales. Nevertheless, Dunlop Dealers are exercising the keenest judgment and sense of fair play in establishing equitable distribution of their very limited supplies.

Yes, in addition to being the only Tire Plant in Canada presently operating... in addition to the pressing demand... Dunlop is handicapped in its efforts by shortages of essential materials, including tire fabric, steel and other metals for tire beads, moulds, valves, etc., and other materials and equipment essential to tire building which, on account of unsettled labour conditions elsewhere, have been in short supply or not available at all. Because of these shortages, Dunlop, in spite of having been as far ahead in its raw material inventories as conditions permitted, has been unable to maintain normal production. Users of tires such as the new 6.50-15 size will thus appreciate the difficulty of getting into quantity production of this particular tire.

IN THE PUBLIC INTEREST

In the face of this grave, unprecedented situation, Dunlop... in the public interest... is going beyond commercial considerations and is doing its level best to serve tire users throughout Canada.

Dunlop assures you that it will continue to serve Canadians to the utmost of its ability, sparing no effort or expense. There is still great need for patience, of course, for conditions show no sign of easing. But when times return to normal... when present difficulties are ironed out... Dunlop, with its expanding production facilities, with the assurance of the steadfast loyalty and mutual goodwill of its employees and the co-operation of its dealers... will again be in a position to make available to tire users everywhere unrestricted supplies of the famous, long-serving, smooth-riding Dunlop Armored Tires.

Hints for the Household

Mock Maple Sponge Cake
This 2-egg cake, with its baking powder and other additions, is not a "true sponge"—but it is a very good cake and a useful one to have in these days of a low supply of shortening.

1/2 cup once-sifted cake flour
1/2 tsp. baking powder
1/2 tsp. salt
2 eggs, separated
1/2 cup plus 2 tbsps. corn syrup
Maple flavoring
1/2 cup fine granulated sugar
1/2 tsp. vanilla

Measure and sift together three times, the flour, baking powder and salt. Beat egg yolks until thick and light; gradually beat in the 1/2 cup corn syrup then enough maple flavoring to taste rather strongly—about 1/3 to 1/2 tsp. will be needed; gradually beat in the sugar; beat together for 5 minutes. Add the flour mixture to yolk mixture, a third at a time, folding lightly after each addition; fold in vanilla. Beat the egg whites until stiff but not dry and gradually beat in the 2 tbsps. corn syrup; beat until mixture will stand in peaks. Fold egg white meringue into batter, lightly but thoroughly. Turn into an ungreased small tube pan. Bake in a slow oven, 300 degs. 1 to 1 1/4 hrs. Immediately cake is baked, invert and allow to hang suspended until cold; loosen with a knife and remove carefully from the pan.

MAIN COURSES FOR HEARTY AUTUMN SUPPERS

After a hard day's work, whether in the field, factory, office or home, appetites are usually pretty keen, especially with cooler evenings to help put an edge on them. The young fry don't have to be given a second call to supper as a rule these days either.

Many homemakers claim that supper is one of the hardest meals to plan, but if there is a good file of substantial supper dishes to draw from, this problem is easily solved. The supper main course may consist of a meat and vegetable dish, a cheese or egg dish, hearty salad or vegetable casserole. While the actual listing of these dishes does not

appear to offer much variety, the number of combinations possible in each one is practically unlimited.

Variety in the supper menu can often be introduced also, in the dessert. There are still many delicious desserts using late fruits such as cobbler or cottage puddings, made by topping fruit with slightly sweetened tea biscuit dough, or plain cake batter, baking and serving with a fruit sauce. Baked Brown Betties made with alternate layers of fruit and fine dry bread crumbs, mixed with a little melted fat and sugar are always popular favourites.

The home economists of the Dominion Department of Agriculture's Consumer Section, offer recipes today which will provide either hearty main courses, or, as in the case of the Cucumber Soup, with the addition of a good salad and dessert, will round out a substantial supper menu. The two cucumber recipes also take advantage of those large or partly ripe cucumbers which may be hard to use up.

CORN-POTATO SCALLOP

4 cups sliced raw potato (cut in 1/4 inch slices)
2 cups corn cut from the cob (raw or cooked)
OR—drained canned corn
6 tablespoons chopped green or sweet red pepper

OR pimiento
1/2 cup chopped onion
2 tablespoons flour
Salt and pepper to taste
1 cup milk
1/2 cup grated cheese

Place a layer of sliced potato in greased casserole, add a layer of chopped pepper and onion sprinkle with salt, pepper and flour. Repeat layers until all vegetables are used. Pour milk into casserole and bake covered in a moderate oven, 350° F. for 1 hour. Remove cover, sprinkle the top with grated cheese, and return to oven for 10 minutes, or until cheese is melted and top browned slightly. Six servings. The cheese may be omitted and strips of bacon used as a topping.

HEALTHY

A HEALTHY SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

NATIONAL IMMUNIZATION WEEK

National Immunization Week will be observed in Canada during the week of September 29th. Again, as in previous years, the Health League of Canada, in co-operation with Departments of Health and Education and with the assistance of press, radio and a great variety of voluntary associations will call attention to the urgent necessity of immunizing against those scourges of childhood—diphtheria, whooping cough, scarlet fever and smallpox. It is a tragedy that these diseases, so largely preventable, still exact their toll of death and disability from Canadian children. The present increase in the number of cases of polio-myelitis, or infantile paralysis, has attracted nation-wide attention. The maximum number of cases of this disease in any one year since, and including 1940 has been 1,881, with 68 deaths in 1941—the average, 700 cases per year. Over the same period there have been 628 deaths from whooping cough alone in a single year—on an average there have been yearly close to 17,000 cases of whooping cough, nearly 3,000 cases of diphtheria and over 17,000 cases of scarlet fever. Vaccination fortunately has diminished the ravages of smallpox and in numerous years there have been no cases reported.

The above figures, however, should give us something to think about. To prevent the spread of poliomyelitis we have only ordinary public health measures. There is no way of creating an immunity. In the case of the other communicable diseases of childhood named above there are specific means of prevention. National Immunization Week is designed to call special attention to the urgent need for action by parents. Diphtheria, whooping cough, and scarlet fever could be banished from our country if only parents would see to it that their children are immunized. Health Departments and practicing physicians are ready to help any time during the year. Parents it is up to you to act NOW.

For 50c your worries are over by placing a want advertisement in the Star. You will find somebody who has what you want.

MODERATION

promises a glorious future

Because we are a moderate people, Canada has come through the war with perhaps the least dislocation of any nation actively involved. That is a remarkable tribute both to the overall policies of our Government and to the fundamental wisdom of the Canadian people.

And it holds out a glorious promise for the future.

But to make that promise come true in the days ahead we shall have to continue to live up to our principles of moderation. We shall have to continue to think, act and live—moderately.

To give in to the natural desire for immediate enjoyment of everything and anything presently in short supply can result only in inflation and disaster.

This is not our way.

The House of Seagram suggests that each day's enjoyment be moderate so that the rich promise of Canada's tomorrow can be fulfilled . . . to the full.

Wheat Pool Patronage

The Alberta Wheat Pool desires to advise its members
 that it intends to carry on for the crop year 1946-47 on a
 co-operative basis paying a patronage dividend in keep-
 ing with the principles under which the Pool was formed.
 The following notice is published to comply with the
 provisions of the Income War Tax Act which was amend-
 ed at the last session of the Parliament so as to tax co-
 operatives.

"As required by the Income War Tax Act, this will
 advise our members, as referred to in the said Act as
 amended, that, in accordance with the terms and condi-
 tions and within the times and limitations contained in
 the said Act as amended, it is our intention to pay a di-
 vidend in proportion to the 1947 patronage out of the re-
 venues of the 1947 taxation year or out of such other funds
 as may be permitted by the said Act, and we hereby hold
 out the prospect of the payment of a patronage dividend
 to you accordingly."
